RE: Business Process Improvement Item 3

The eTicket and eJV systems have been updated to allow users with an active UGA MyID to view transactions and supporting documentation that have posted to the general ledger.   The links with instructions to view the documentation in each system are listed below:

eTicket System - http://www.busfin.uga.edu/accounting/Browse_Processed_Tickets.pdf
eJV System - http://www.busfin.uga.edu/accounting/eJV_Search_Instructions.pdf

This implementation was a result of a suggestion identified as item 3 on the list of business process improvements (BPI). With the update to both systems, it is recommended this item be noted as complete. Please provide any input or feedback regarding this update to Allison Davis at ahdavis@uga.edu.

An announcement will be posted to the Business Services listserv this week. Thank you.
