

The University of Georgia

Office of the President

Dear Faculty and staff:

It is my pleasure to announce the launch of the 2018 Campaign for Charities. This important initiative unifies the University of Georgia, the Athens community, and our home state in a spirit of giving.

The Campaign for Charities provides a number of opportunities for faculty and staff to contribute to organizations that make a difference, and UGA has established an outstanding tradition of supporting this campaign. In fact—for 17 consecutive years—the University has won the Governor’s Cup for the highest contribution per employee of state organizations with at least 9,000 employees.

To build upon this past success, UGA has established two campaign goals for 2018: to raise \$400,000 and to achieve a 15% participation rate. As we work together to accomplish these objectives, we invite each of you to consider contributing to an organization that is meaningful to you.

I am grateful for your support of this campaign, and I am certain that by working together the University of Georgia will achieve our goals before the campaign concludes on December 15.

Sincerely,

Jere W. Morehead
President
