TECHNOLOGY FEE
FACT SHEET

Purpose of the fee:
- This fee supports UGA's mission to enrich the educational, institutional, and cultural experience of students through enhanced technology services.

Fee amount and annual budget:
- Academic Year 2018 – 2019 - $114 per semester
  o Academic Year 2018 – 2019 Budget - $9.2 million

How the fee revenue is to be used to support students:
- The Technology Fee is used to support a variety of academic and instruction-related technology services, including the following: physical and virtual computer labs, computer software for computer labs, subsidized printing via print kiosks, helpdesk support for technology issues, Internet bandwidth, network and wireless support, electronic learning commons (eLC), mobile technology, classroom technologies that enhance the presentation of course materials, the development of electronic course materials, and computer software subscriptions such as Office 365. The fee revenue also covers direct administrative support, including salaries and benefits, for these services.

Annual fee review and approval:
- The fee is approved annually by members of the Mandatory Student Fee Committee. This committee consists of 4 UGA administrators and 4 UGA students. The students are appointed on behalf of the Student Government Association and the Graduate Student Association, and include undergraduate and graduate representation. The committee reviews the annual fee recommendation and associated budget and makes recommendations to the President of UGA, who ultimately recommends the fee to the Board of Regents.
- Once approved by the Board, the fee is implemented for the associated academic year.
