University of Georgia
Athens, Georgia

Report on the Schedule of Expenditures of Federal Awards

We have audited the accompanying Schedule of Expenditures of Federal Awards of The University of Georgia (the "University") for the year ended June 30, 2016, and the related notes to the schedule.

Management's Responsibility for the Schedule

Management is responsible for the preparation and fair presentation of the Schedule of Expenditures of Federal Awards. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule that is free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Schedule of Expenditures of Federal Awards based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Expenditures of Federal Awards is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedule of Expenditures of Federal Awards. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedule of Expenditures of Federal Awards, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the University's preparation and fair presentation of the Schedule of Expenditures of Federal Awards in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Schedule of Expenditures of Federal Awards.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Schedule of Expenditures of Federal Awards referred to above presents fairly, in all material respects, the federal awards expended by the University for the year ended June 30, 2016 in accordance with the basis of accounting described in Note 1.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 to the Schedule of Expenditures of Federal Awards, which describes the basis of accounting. The Schedule of Expenditures of Federal Awards was prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Other Matters

The State of Georgia Department of Audits and Accounts has audited the basic financial statements of the University as of and for the year ended June 30, 2016 and has issued its report thereon based on the audit of the basic financial statements performed in accordance with auditing standards generally accepted in the United States of America dated December 30, 2016, which expressed an unmodified opinion on those financial statements and reports no findings in relation to internal control over financial reporting or compliance and other matters.

Other Information

Our audit was conducted for the purpose of forming an opinion on the Schedule of Expenditures of Federal Awards of the University. The accompanying supplemental Schedule of Governmental, Restricted Accounts by Agency for the year ended June 30, 2016 is presented for the purpose of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the Schedule of Expenditures of Federal Awards. This schedule is the responsibility of the management of the University and was derived from and relates directly to the underlying accounting and other records used to prepare the Schedule of Expenditures of Federal Awards. Such additional information has been subjected to the auditing procedures applied in our audit of the Schedule of Expenditures of Federal Awards and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the Schedule of Expenditures of Federal Awards, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the Schedule of Expenditures of Federal Awards taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2016 on our consideration of the University's internal control over financial reporting of the Schedule of Expenditures of Federal Awards and on our tests of the University's compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting of the Schedule of Expenditures of Federal Awards and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting of the Schedule of Expenditures of Federal Awards or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting of the Schedule of Expenditures of Federal Awards and compliance.

Report of Independent Auditor on Internal Control over Financial Reporting of the Schedule of Expenditures of Federal Awards and on Compliance and Other Matters Based on an Audit of the Schedule of Expenditures of Federal Awards Performed in Accordance with *Government Auditing Standards*

University of Georgia
Athens, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Schedule of Expenditures of Federal Awards of the University of Georgia (the "University") for the year ended June 30, 2016, and the related notes to the Schedule of Expenditures of Federal Awards and have issued our report thereon dated December 30, 2016. Our report includes a reference to other auditors who audited the financial statements of the University, as described in our report on the University's Schedule of Expenditures of Federal Awards. This report includes our consideration of the results of the other auditor's testing of internal control over financial reporting and compliance and other matters that are reported on separately by those other auditors. However, this report, insofar as it relates to the results of the other auditors, is based solely on the reports of the other auditors.

Internal Control over Financial Reporting of the Schedule of Expenditures of Federal Awards

In planning and performing our audit of the Schedule of Expenditures of Federal Awards, we considered the University's internal control over financial reporting of the Schedule of Expenditures of Federal Awards to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Schedule of Expenditures of Federal Awards, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting of the Schedule of Expenditures of Federal Awards. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over financial reporting of the Schedule of Expenditures of Federal Awards.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the University's Schedule of Expenditures of Federal Awards will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting of the Schedule of Expenditures of Federal Awards was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting of the Schedule of Expenditures of Federal Awards that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's Schedule of Expenditures of Federal Awards is free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of the Schedule of Expenditures of Federal Awards amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report of Independent Auditor Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Grant Guidance

University of Georgia
Athens, Georgia

Report on Compliance for Each Major Federal Program

We have audited the University of Georgia's (the "University") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2016. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

UNIVERSITY OF GEORGIA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND
SUPPLEMENTAL SCHEDULES

FOR THE YEAR ENDED JUNE 30, 2016

Note 1—Basis of presentation

The accompanying Schedule of Expenditures of Federal Awards and Supplemental Schedule of Governmental, Restricted Accounts by Agency (the “Schedules”) include the federal award activity of the University of Georgia (the “University”) under programs of the federal government for the year ended June 30, 2016. The information in these Schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (“Uniform Guidance”). Because the Schedules present only a selected portion of the operations of the University, they are not intended to and do not present either the financial position, changes in net assets, or cash flows of the University.

Note 2—Summary of significant accounting policies

Expenditures reported on the Schedules are prepared on the cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-21, *Cost Principles for Education Institutions*, or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedules represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

Note 3—Indirect cost rate

The University has elected not to use the 10% de minimis indirect cost rate allowed under Uniform Guidance.

Note 4—Federal student loan programs

The federal student loan program listed subsequently is administered directly by the University, and balances and transactions relating to this program are included in the University’s basic financial statements. Loans outstanding at the beginning of the year and loans made during the year are included in the federal expenditures presented in the Schedules. The balance of loans outstanding at June 30, 2016 consists of:

<u>CFDA Number</u>	<u>Program Name</u>	<u>Outstanding Balance at June 30, 2016</u>
84.038	Federal Perkins Loan	\$9,038,882

Note 5—Non-cash awards

Other than the Federal Perkins Loans discussed in Note 4 above, the University did not receive any material non-cash federal awards during the year ended June 30, 2016.

Note 6—Contingencies

These programs are subject to financial and compliance audits by grantor agencies. The amount, if any, of expenditures that may be disallowed by the grantor agencies cannot be determined at this time, although the University expects such amounts, if any, to be immaterial.

UNIVERSITY OF GEORGIA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND
SUPPLEMENTAL SCHEDULES

FOR THE YEAR ENDED JUNE 30, 2016

Note 7—State funds

The State of Georgia receives awards directly from the federal government and supplements those funds with its own funds. The State then awards a combination of federal and state funds to the University. If the University is unable to determine the federal portion, the entire amount is reported on the Schedule of Expenditures of Federal Awards.

UNIVERSITY OF GEORGIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

FOR THE YEAR ENDED JUNE 30, 2016

Summary of Auditor's Results

Financial Statements – as Reported by the State of Georgia Department of Audits and Accounts
Dated December 30, 2016

Type of auditor's report issued: Unmodified

Internal control over financial reporting:

- Material weakness(es) identified? yes no
- Significant deficiency(ies) identified? yes none reported

Noncompliance material to financial statements noted? yes no

Federal Awards

Internal control over major federal programs:

- Material weakness(es) identified? yes no
- Significant deficiency(ies) identified? yes none reported

Type of auditor's report issued on compliance for major programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with 2CFR Section 200.516(a)? yes no

Identification of Major Programs

The programs tested as major programs of The University of Georgia included:

<u>CFDA #</u>	<u>Name of Federal Program</u>
Listed by CFDA number in SEFA	Research and Development Cluster
84.007, 84.033, 84.038, 84.063, 84.268, 93.925	Student Financial Assistance Cluster

The dollar threshold for Type A programs for The University of Georgia was \$3,000,000. The University of Georgia qualified as a low-risk auditee.
