

UGAmart 19.2 Feature Enhancements

On Friday, July 19, UGAmart will begin upgrading to version 19.2. UGAmart will be unavailable beginning at 9:00 pm on Friday, July 19 through approximately Noon on Sunday, July 21. The enhancements to UGAmart are listed below.

...

Summary of 19.2 Feature Enhancements:

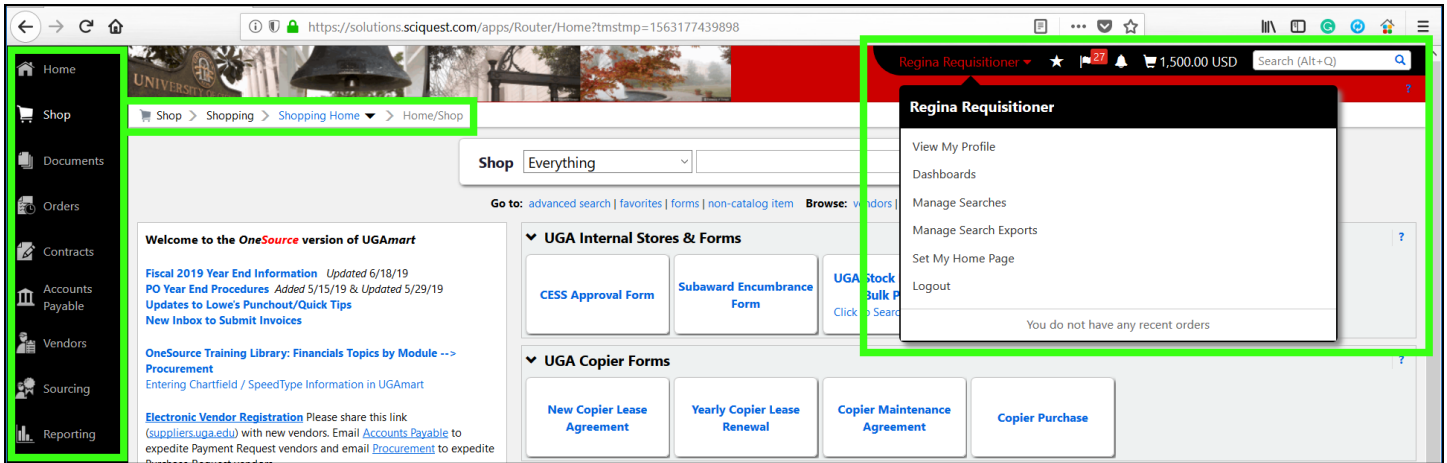

1 New Site Navigation Look and Feel
2 New Shopping Experience

1) New Site Navigation Look and Feel

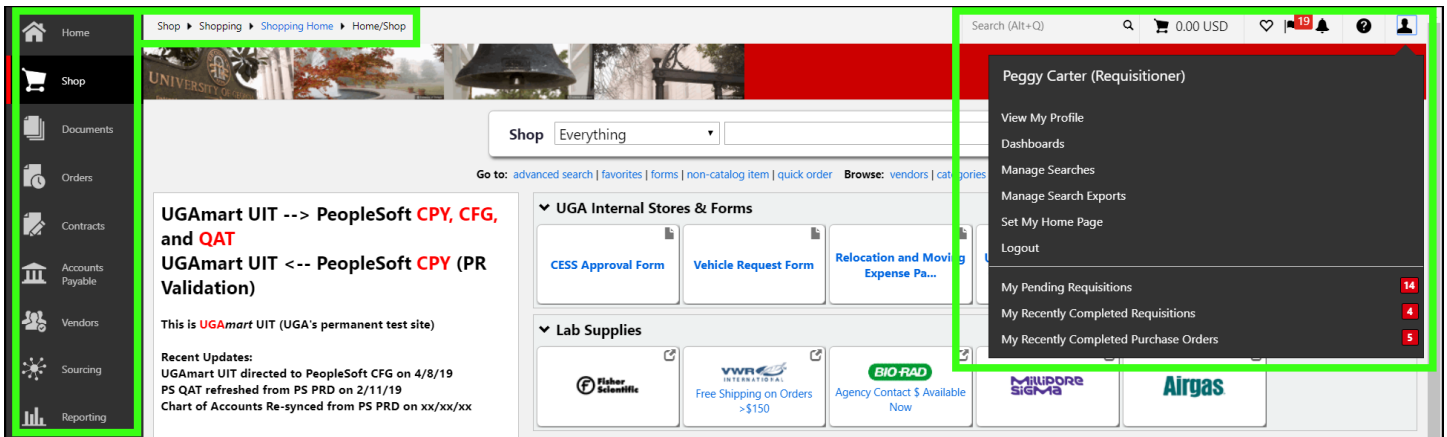

In the 19.2 release, Jaggaer will begin an initiative to work towards a consistent user experience across all Jaggaer products. Changes will include new product iconography as well as changes to the top navigation bar.

In these examples, you can see the current and new look of the shopping home page and the icons as well as the location of the navigation bars.

(New) 19.2 Screenshot from UGAmart Test: Shopping Home Page

Please refer to the [19.1 release notes](#) for more information regarding the New Shopping Experience and how it ties into the New Site Navigation that is shown above.

2) New Shopping Experience

In 19.2, the development of the new shopping experience continues in order to streamline, simplify, and modernize the user shopping experience. Jaggaer has added the ability to share carts, and expanded the new User Interface to include showcases and submitted requisitions. Additional updates have been made to the Search, Shopping, Cart, and Checkout pages to enhance the new shopping experience.

There are a few things to note about the each enhancement.

- The New Search Experience view has been implemented for all shopping search options, i.e., everywhere there is a search icon. This includes the Requisitions search (Orders > Search > Requisitions) and the My Orders pages (View My Carts and Orders > View My Orders).
- The New Shopping Experience includes the below (Please note no updated screenshots are available)
 - Showcases (Punchout & Forms area) have been updated with the new User Interface.
 - The Assign Cart feature has been added to the new shopping experience.
 - The Share Cart feature has been added to the new shopping experience.
 - Checkout –Submitted requisitions have been updated with the new User Interface and are displayed in a document configuration that is similar to the Checkout page.

The screenshot displays the UGAmart shopping interface. At the top, there is a navigation bar with the University of Georgia logo and a search bar. Below the navigation bar, there is a search bar with a dropdown menu set to 'Everything' and a 'Go' button. Below the search bar, there are several sections of product showcases. The first section is 'UGA Internal Stores & Forms' with items like 'CESS Approval Form', 'Vehicle Request Form', 'Software', 'Copier Maintenance Agreement', and 'Subaward Encumbrance Form'. The second section is 'Lab Supplies' with items like 'Fisher Scientific', 'VWR International', 'BIO-RAD', 'SIGMA-ALDRICH', and 'Airgas'. The third section is 'Books, Office Supplies, MRO/Facilities' with items like 'GRAINGER', 'Complete Book', and 'STAPLES'. The fourth section is 'Computers' with items like 'Apple', 'DELL', and 'CDWG'. A red arrow points to a toggle icon in the bottom right corner of the screenshot, with the text 'Toggle between Classic and New Shopping Experience' written in red above it.
